

DresserJohnson Ring Sizer

Please read all instructions carefully.

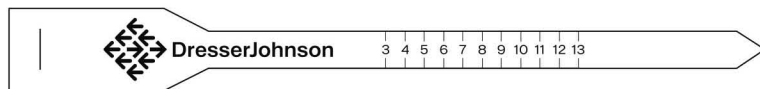

Measure the ruler below to ensure it is exactly 2 inches long.

If measurement is not accurate, check that you are printing the page at full size and reprint before continuing.

Measure your finger with our paper ring sizer.

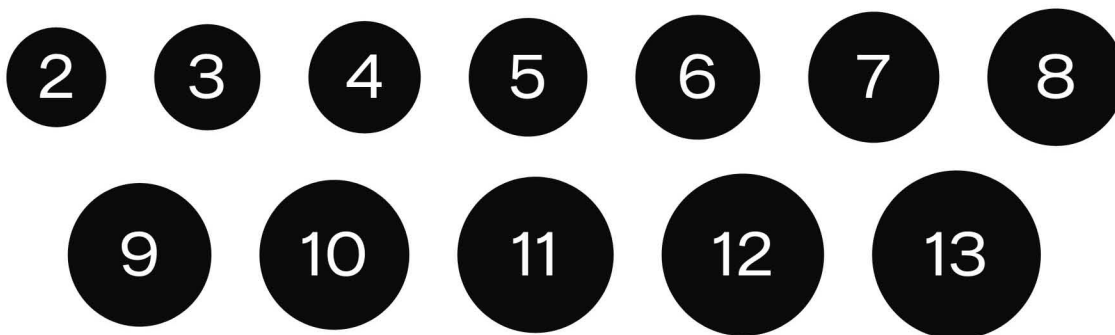

Typically it is best to measure your fingers at the end of the day.

- Carefully cut out the sizer above as well as the small slit on the left side.
- With numbers facing out, slide pointed end through the slit.
- Slide the sizer on your finger.
- Place sizer on the largest part of the finger.
Remember, the ring has to fit over your knuckle.
- Pull end until the sizer fits snug.
- The number that lines up at the slit represents the ring size for that finger.

Match a ring that you already have.

- Select a ring that properly fits your finger.
- Place the ring over the circles below. Match the inside of the ring to the circle nearest in size.
- Order the larger size if the ring falls between two sizes.
